

Invitation to Organizations

Join the Cease Fire Campaign!

In communities across America and its territories, open air burning and detonation of hazardous waste explosives results in the uncontrolled release of toxic heavy metals, energetic compounds, perchlorate, nitrogen oxides, dioxins and other carcinogens to the environment, placing the health of our soldiers, workers and neighbors at risk.

This letter invites your organization to join the 60 social justice, environmental health, tribal, veterans service and conservation groups to become a participating member of the Cease Fire Campaign.

To be listed as a participating organization, all that is required is that your group endorses the Campaign's goal statement. (There are no fees for participation.)

OUR GOAL STATEMENT

The CEASE FIRE campaign seeks to protect human health and the environment by calling for the immediate implementation of safer alternatives to open air burning, detonation and incineration/combustion of military munitions. These alternatives must incentivize waste prevention and recycling; prevent, to the greatest possible extent, the release of toxic emissions and pollutants; and advance the principles of environmental justice by assuring that all people enjoy the same degree of protection and access to the decision-making process. We pursue these goals through peaceful non-violent action and democratic organizing consistent with the Jemez Principles.
