Subject: 18RR5690: Olah Truax Field Request

Dear Laura Olah:

In response to your open records request, submitted on April 16, 2018, the department has searched for records regarding the following:

“Does the Department have any records, including electronic records and communications, on the PFAS investigation at Truax?”

The Wisconsin Department of Natural Resources has concluded its search and located records responsive to your request. The electronic records have been burned to a disc enclosed with this letter.

There are a couple of paper files that are available for your review at DNR's Fitchburg service center. Please contact Wendy Weihermuller to set up an appointment to do so. You can also reach her at (608) 275-3212 or at wendy.weihermuller@wisconsin.gov.

Once you've reviewed the paper files, the request will be considered closed. Please let me know if you have any questions. You can reach me at (608) 624-6125 or at philip.derge@wisconsin.gov.

Sincerely,

Philip Derge
Division Open Records Coordinator
